DBT Assignment-2

1. Which field of the Customers table is the primary key?
Cnum is the primary key.

2. What is the 4th column of the Customers table?
Rating is the 4th column of the Customers table.

3. What is another word for row? For column?
Row is also called Record, Tuple, Entity
Column is also called Field, Attribute, Key

4. Why isn't it possible to see the first five rows of a table?
It is possible to see the first five rows of a table because rows are not stored in a specific order on the database server's disk. By default, queries return rows without guaranteed order.
